

Shipping

Tangible Benefits

Accellos

ShippingLIVE!® can save you money in shipping costs and efficiency gains, and that's money that goes directly to your bottom line!

What Can ShippingLIVE!® Do For You?

- Dramatic Freight Cost Reduction
- Ensure Client and Carrier Compliance
- Streamline Distribution Center Operations
- Enforce Enterprise Business Rules
- Real-time Decision Making and Exception Handling
- Produces all domestic and international paper work

Rate Shopping

ShippingLIVE!® has one of the most powerful Rate Shopping capabilities in the industry. Rate Shopping allows a company to automatically select the cheapest and/or fastest method of delivery between any combination of Parcel and LTL methods. Eliminate the "best guess" and start doing what makes FINANCIAL sense for your company.

Centralized Solution

Eliminate the need to manage multiple systems, like UPS, FedEx, DHL and LTL carriers and put everything under one roof. ShippingLIVE!® provides a cutting edge and robust Integration with almost all ERP systems. All shipping activities can be managed under one system, eliminating the need for multiple software packages, interfaces and hardware requirements.

Immediate Cost Savings

Our clients typically experience a shipping cost reduction of 5% to 25% almost immediately upon implementation. Savings are realized in a number of ways:

1. FTE/Labor Reduction
2. Enforcement of all carrier discounts and selection of the best possible rate for every shipment.
3. Get Customer Freight Quotes at Order Entry, and re-shop at shipping

4. Automatically enforcing routing guides, assuring all business rules are followed every time.
5. All shipping activity under one system eliminating hardware, software and manual labor costs.
6. Transparent, Robust and Flexible Integration with your ERP system eliminates manual labor costs.
7. Automatic Exception Handling eliminates charge backs due to manual errors.
8. Automatic Freight Invoice Reconciliation; catching overcharges by carriers without any manual labor.
9. Enforcement of Enterprise Shipping Rules; eliminating poor manual decisions at ship stations based on "best guess".
10. Automate your International Documentation Creation and Printing Process and more...

Customer Service

ShippingLIVE!® can help improve your service offerings by providing the ability to give freight quotes right from Order Entry, improving your customer service efficiency and reducing shipping process and handling time.

Inbound Portal

Extend your shipping rules and policies to your Inbound Shipments. By taking advantage of Rate Shopping and/or Configuration Engine within ShippingLIVE!, you can apply your discounts and desired shipping methods to your inbound shipments.

Our Vendor Portal allows Suppliers of your inbound shipments to view their Purchase Orders, update the details of the shipment and if required, Rate Shop on your rules and discounts, the best way to ship the order(s) to you.

Industry Leading Configuration Engine

ShippingLIVE!® can handle the complex discount or up-charge structures many companies have. ShippingLIVE!® can easily capture shipping costs & calculate & capture the amount to be posted to the Invoice for the end client (including Free Shipping Discounts).

Ease of Implementation

ShippingLIVE!® is easy to implement and use and can be up and running quickly.

Enterprise Performance with Lowest Cost of Ownership

- **Server Platform:** Windows 2003/2008 32 & 64 bit. Native ASP .NET 3.5. MS SQL 2005. Developed as a set of web services
